RESPONSE

Sir:

A telephone interview was conducted on July 23, 2008 with the Examiner in which it was discussed that the Examiner would allow Claims 2-11, 18, 20-24, 26-31 and 33-35 if Applicants filed a Terminal Disclaimer to U.S. Patent No. 7,150,182 in order to overcome an obviousness type double patenting rejection. In response to the telephone interview, Applicants submit herewith a Terminal Disclaimer disclaiming that part of the term of any patent maturing from this application, which would extend beyond the term of any patent maturing from U.S. Patent No. 7,150,182, thus overcoming a judicially created doctrine of obviousness-type double patenting rejection. Accordingly, the claims as presented herein place the application in condition for allowance.
